**Equigain™**

**Appetite Tonic**

## Testimonials

*"I am a big fan of this product. In equine medicine today stomach ulcers are a regular problem and have a big impact on appetite. Equigain is a feed material which I have seen significantly alleviate the symptoms of ulcers. Horses are happier, have an improved appetite and look and perform better."*

**- Glenn Robertson-Smith**  
Leading Equine Veterinarian

*"I've been thrilled with Equigain™. It's the best appetite stimulant I've found - our horses rarely leave any feed now. Their overall condition and coat quality have noticeably improved, and they're racing very well. Equigain™ is an excellent product that we use in all our feeds at all of our stables."*

**- Danny O'Brien**  
Horse Trainer

## Regulatory

# Equigain™

Equigain™ is a safe natural feed material sourced from Australian grown sugarcane (*Saccharum officinarum*). Produced via a patented process, that concentrates powerful antioxidant polyphenols into a highly palatable material.

Equigain™ enhances appetite and improves the appearance of horses.

Suitable for all breeds of horses in any equestrian discipline from racing to leisure riding including breeding and spelling stock.

## Dosage

Shake well before use. Optimum results 50-100mls per horse per day added into feed.

## Benefits

- ✓ Improves appetite
- ✓ Improves temperament, wellbeing and attitude
- ✓ Improves condition and physical appearance
- ✓ Supports gut microbiome
- ✓ Improves feed efficiency
- ✓ Decreases waste feed
- ✓ Contains natural anti-oxidants
